EDUCATION

Smith College **Northampton, MA**
B.A. Quantitative Economics and Statistical & Data Sciences *May 2027*

Relevant Coursework:

- Programming for Data Science in Python, Multiple Regression, Linear Algebra, Intermediate Microeconomics, Intermediate Macroeconomics, Data & US Criminal Legal System, Economics of Future Technology

Projects:

- Current SDS seminar project: Analyzing Washington state fiscal data in tandem with crime statistics to explore the relationship between police spending, social spending, and crime rates within each of the state's 39 counties. Using regression analysis to determine if a decrease in either type of spending is a statistically significant predictor of crime rates.
- Current economics seminar paper: Applying a game theory model to the AI race between China and the US where each country chooses between safeguarded development or acceleration. Connecting the model to policy, firm incentives, technological leadership, and social welfare.
- Super Spy Message Maker: Open-source Python package that encodes and decodes Atbash and Caesar ciphers and Morse code. Includes documentation and unit testing.

TECHNICAL SKILLS

Programming: Python, R, SQL, MATLAB
Tools: Microsoft Excel, Microsoft Office Suite

EXPERIENCE

June 2026 – August 2026
Educate Young Girls – **Development Intern**

- Researched fundraising pathways & analyzed trends in donations within a nonprofit organization's development team. Used Excel to work with the organization's 2025 financial report and presented personal recommendations based on my analysis to my supervisor and the grant writing team.

January 2024 – Present
Smith College Clark Science Center, Northampton – **Administrative & Research Assistant**

- Supports daily administrative operations in Smith College's Clark Science Center. Works directly with students, faculty, and staff to assist with research projects.

May 2024 – January 2026
University of Washington, Seattle – **Building Services Coordinator**

- Assisted with the set up and coordination of events including weddings, memorials, and corporate conferences at the University of Washington Botanic Garden's Center for Urban Horticulture and the Washington Park Arboretum. Managed the front desk at the Arboretum's Graham Visitors Center.

ACTIVITIES

2026-27 Gardiner House Council: Senior Class Representative

- Plans events and activities for senior class members and attends weekly house meetings.
